The main topic of conversation was a project that Paul S and Craig F put together with Case Woodworking in Savannah. Case is offering certificates to our members with a 10% discount on wood and some supplies. Along with this the club is adding \$to each certificate.

The Certificate will be raffled off at a meeting to the members that are in good standing. You must be present at a meeting to receive this certificates. One per member. One per meeting at Officers discretion.

Case stipulates that they will collect the certificate when used. You must use the entire amount for your purchase. (easy) Certificate good for one year from date we receive them. No replacements if you lose it. You must use it or give it to another member.

The following are a few of the many demonstrators who are doing virtual demonstrations online for a nominal fee of \$10.00 via zoom. The demos last approximately 2 to 4 hours. Quality is excellent, both content, and photography. Interaction with demonstrator is encouraged. I have attended approximately a dozen in the past several weeks and have gained so much information. Well worth the value. If you are interested and want more information give me a call at 912-617-3072.
