

# Golden Isles Woodworkers and Woodturners

June 12th 2021

[www.GIWW.org](http://www.GIWW.org)

**New location  
1377 Cate Rd  
just a mile up from  
our old place thanks  
to doug  
10 am**

DURING OUR May meet Roy Yager demo on basic wood turning and sharpening tools. Biggest turn out we have ever had and a possible new member Marylin Proper was a visitor.

This coming meeting will have a demo by Ken Mattie.. Be sure to attend he has some fantastic things to show us.

Minutes of May meeting. Eddie dropped the gavel at 10.15 am. due to lathe had died and our electrical guy Gerald was in tear down mode. 23 members present.

Case Cert. won by Eddie W. and Skip Hagey.

Raffle \$ 45.00

Edward Mercer donation of the black photon on mallet was the big prize and Herb M. won it. Lets see what Herb brings in the next time.

Demos coming for 2021

possible demo by Steve Possey on sharpening chisels and other tools.

Woodworking Colleagues,

We are having the wood sale that many of you asked me about during the tool sale in St Simons Island right before Covid hit.

There is a lot of mahogany (4/4, 5/4,6/4), some White oak, some cherry (4-5" widths, pine, many live edge slabs (oak, hickory, pine, cedar) and miscellaneous pieces *continued below*

Pricing will be attractive. If you have projects and need wood, this is the place to come!!!! We ask that masks be worn in the shop as it is part of the home. Location 2200 Ocean Rd, corner of ocean and 13th street St Simons

## VACUUM PRESSES

*Design, Construction & Uses for the DIY Woodworker.*

### Presentation Outline

- Introduction
- Types of vacuum generators
  - Venturi
  - Vacuum Pump
- Uses of the vacuum systems
  - Vacuum Chucking for Turning  
*Brief description of vacuum chucking systems and their uses.*
  - Work-holding  
*Review and demonstration of commercially available vacuum hold-downs and the assembly and use of a DIY hold down that can be customized for specific tasks.*
  - Forming curved parts  
*Demonstrate the fabrication of curved wooden parts using the vacuum press.*
  - Veneering  
*Review the veneering process in general and demonstrate the setup used for the veneering of solid and curved panels using a vacuum press with a polyurethane bag.*
- Summary & Proposal
- Question & Answer

*At the conclusion of the presentation, there will be a drawing for a venturi vacuum and work-holding system that I purchased some years ago at a woodworking show and no longer use. Since there are no moving parts in a venturi vacuum system, this system should be as good as the day it was purchased. (Note that an air supply with sufficient capacity is required for the operation of a venturi vacuum system.)*

Ken Mattie  
11712 Old Demere Road, Saint Simons Island, Georgia 31522  
Phone: 404.630.2209 Email: kenmattie@comcast.net

You all asked. NAME AND PHONE NUMBER FOR LASER PERSON THAT EDDIE USED.

# Roy Yager

Roy explaining tools and their uses.

Using roughing gouge the easy way to round any piece of wood. Look at those wood chips fly

Correct method of sharpening gouges using platform

demo on making a simple round over or cutting into wood. Spindle turning.. Here he is using a 3/8" spindle gouge to cut in making sure to start from the outside and cut down and to left and or right.. Like a scoop

The group watching Roy and on the far side  
These two guys I think were watching a movie on  
the inside of their eyelids.

coming event Preliminary information

Our group has been invited to show at the Goodyear Cottage Sept 1st thru 30th 2022.

1. Its what they call a 3d show? No art work for walls I think we are safe there. Just floor pieces or items that will be mounted on display stands. They do a fantastic set up for a show. You just need to come up with a craft that you make.
2. You mark you piece with description and sale price OR Not for sale
- 3 It's a great idea for our organization.. Start thinking on what you might want to make.
4. To show at Goodyear there is a \$ 30.00 fee which entities you to join the group of artists. The payment is for one year and you can display up to 10 items at a time. Once sold they send a check to you minus a 25% fee.

MEMBERS CREATIONS

---

Jim Redden

Heart pine cutting board.

---

Karen G

Special order Salt Boxes  
spindles are cocobolo and  
Bocote  
box is box elder?

---

Roy Yarger

Roy did not say how long it took him to make this walnut and cherry bed but I can guess by his word ( FINALLY ) that it took awhile. Roy and I had a discussion about the Bed??? but we will not go into that.

Walnut and cherry construction

Roy makes pens in his spare time. and donates them to the USO lounge in

---

Charles W.

WHAT KIND A WOOD DO YOU THINK.  
NOT CEDAR,,, NOT OAK,, NOT PINE

AHHHHH IS YOU GUESSED **CYPRESS**  
you got it right.

Says darn difficult and no way as comfortable as the Adirondack chair But then again yours truly can not get out of one of those chairs. Too much ballast maybe in a low spot.

---

Barb H

vase playing with color

Cedar bowl unfinished

Hollow form messing with colors and texture

Geralds Holly made up of goblets and candle holders

---

Craig F

Canary body with walnut base.. ring is katalox  
and canary glued together then angle cut  
shellac and 2 coats of oldies  
15 in across and 5 in deep
