GREETINGS WOODWORKERS

This has been a very busy month. We started off with the library doll house presentation and are ending up with the Jekyll Island show. In addition, our contact inquiries posted from our web site have been buzzing as well as general inquiries about both parts of the GIWW. It seems interest in our work is being generated. It may be partially as a result of our bookcase display at the library. It is difficult to determine.

I will be picking up the pieces on display at the library today. I will bring them Thursday when we drop off the Jekyll Island show items for those of you who are participating in the Goodyear Cottage show. Otherwise, I will return them at the next meeting you attend or you can arrange to pick them up.

A big thanks goes to Gerald Dukes for his effort in getting the video equipment up to snuff. We will be recording our demos in the very near future and eventually hope to put some of our material on YouTube.

A word from the 'wiser'. When you hear that little voice in your head that says "I really should change that band saw blade; the old one is getting dull." LISTEN TO IT!!! Don't do as I did and reply to that little voice "I'll just finish these two pieces and then change it." Yes, I tried to cut my left pinky finger off, but fortunately I was not successful. I did manage to drive me to the ER. A hand surgeon put it back together the best he could. About 20 stitches and a pin. The pin and stitches will be removed 10-7. It is expected that I will have full use of the finger which seems miraculous. I am very grateful it wasn't worse.

Don't forget the reception at Goodyear Cottage is Sunday 1 – 3. Tell your friends and family, or better yet, bring them. It should be fun.

Karen Grogan, Secretary – 912-222-5959

Woodturner's Meeting

Monthly Meeting – Saturday, October 10, 9 a.m. - Karen Grogan's shop at 112 Chad Circle, Brunswick, GA. A demo will be done by Larry Sullivan using the skew chisel.

President's Message

GOLDEN ISLES WOODWORKERS

The recent injury to another one of our members using a power tool, should be a wake-up call to each of us that shop safety should be the first thought as we turn our machines on. From this point on, our woodworking demonstrations are going to start with a safety tip. I think with that in mind, our chances of reducing injuries will be a little bit less. If we avoid just one injury, the time spent in our demos and home shops will be well worth it. Remember, work safe and count to 10 when your done!

I hope to see all of our members at the show reception on Jekyll on Sunday.

Paul Speich

GOLDEN ISLES WOODTURNERS

Due to circumstances and a change of plans, the October Woodturning meeting will be held on October 10, 9 a.m. at Karen Grogan's shop, 112 Chad Circle, Brunswick. The demo will be on using the skew chisel. We will be turning carrots and maybe some other appropriate vegetable. There's nothing to fear when using the skew on a vegetable. They provide excellent practice material. Please bring your own skew if you would like to practice with it.

Hope to see you all at the Opening Reception of the show on Jekyll on Sunday, 1 – 3.

Larry Sullivan

Woodworker's Meeting

Monthly Meeting – Tuesday, October 20, 7 p.m. - Paul Speich's home at 185 Hardwood Forest Drive, Brunswick, GA. Subject of demo to be announced at a later date.
