

Golden Isles Woodworkers and Woodturners

October 10th 2020

www.GIWW.org

Location

**300 wrangler Rd.
Brunswick**

10 am
behind 1743 Old Jesup Rd

This could be the **Last** meeting Oct 10th at Bryce Highsmith shop.

The October meet has a demo by Roy Yarger doing a Disc demo. IF you were at the last meeting I might have misspoke on that kind of demo.

Pres. Eddie informed the members that Bryce Highsmith was closing down and heading to Colorado to teach snow boarding????????!!!!!! We are on the lookout for new shop.

Welcome to Pete Bartlett and Leon Felps new members. 18 members present.

Follow the arrow.. then
first door on left with
American Flag

Since that last meeting we had in Sept. Eddie talked to building owner and we can now use the building space till he finds a renter. BUT we need to find a space.

Winners of Raffle

Winners of the Case Certificate were Jim Redden and Pete Bartlett who was not a member at that time.. He of course joined right after that. He lives down in Kingsland near Barb.

Case stipulates that they will collect the certificate when used. You must use the entire amount for your purchase. (easy) Certificate good for one year from date we receive them. No replacements if you lose it. You must use it or give it to another member.

The club is looking for a wolverine sharpening system for lathe tools.. Eddie seems to think he has a grinder that he is not using.

Demos coming up.

Oct.
Nov.end

Disc vase
grain cutting boards

Members present at August meeting Eddie W., Craig F., Gerald D., Barb H., Herb M., Karen G., Jerry G., Jim R., June C., Paul., Steve Possey, Dave L., Vickie W., Mike H., and Skip H., Steve Pappas, Charles W. and a friend of Barb, Lou Robert

Raffle brought in \$ 67.

Lots of wood donated by Case woodworking supply in Savannah. Thanks to those guys.

Seems as though we are rolling along now.. But remember MASKS and keeping your distance.

Vickie W. gave a great demo on Ticky stick and pocket jig I think we all were amazed with the ticky stick thing. Although the ticky stick thingum looked more like tracks made by a slug or ants on her paper. But by jeepers it works like she says.. Fantastic.

Barb won the item made by ?? Jerry so next month she brings in something.

Bring in a tool or some item you no longer use.. WE will raffle it off. Wood to be raffled. If its in your way and keep tripping over it,,, bring to meeting.

NEW NEWS??????

Charles Walker just sent mail saying that its been quite some time since we have done a community project. His suggestion is a student desk. Good idea. I can imagine that there are some kids out there in our community that are doing their work sitting in a chair or on the sofa. WE should talk this over at next meeting.. Possible contact a minister of churches or school official to find a child. Looking on pinterest there are many plans for building a desk.... Possible we could divide this into teams. Each team building one desk. Langs always have discarded lumber piled in their back yard. Would assume Lowes and Home depot does the same.

A good project to help our community. Let's talk about it at the Saturday meeting.

Vickie Wilcox demo pics

The pic above is the ticky stick No special size and no special spots for cuts and wiggles but it makes the paper to the left.. Those are ant tracks although does resemble slug tracks when we lived up north. But the amazing thing was after all those marks were transferred to paper and cut out they fit exactly in the plywood.

The directions for this demo is on the GIWW website.

For those of you that make pocket plugs to cover screw holes here Vickie showed how to make a jig that can make all the plugs you could need at a fraction of cost of buying them at store.

Roy Y

Roy is doing a demo this October on a disc vase.. I saw this at his booth on Newcastle street in Brunswick 10 yr ago. HE is driving down from Savannah for this and bringing his own lathe.

MEMBERS CREATIONS

Craig F

cedar vase.. 16 " high

Curly Maple tray with Walnut and Canary accents

Natural Edge Walnut bowl

Vase of Tulip Popular won from Gerald

Roy Y

End grain cutting board

Paul S.

Click this picture to make bigger. Curly Maple drawer fronts, walnut Desk with Oak door insert fronts

Steve D

Steve kept his grandsons (3) busy while out of school. This is a Canary box with burl top for one of the boys Trinkets

Below is a mahogany bookcase

Cutting board out of leopard, Canary, Maple, Bloodwood, and Sapelo

Charles W., Herb M., and Paul S

Installed package wrap desk at Big Flea thrift shop with Paul's help. Thanks to Herb for his help building it. They will paint the plywood face to match old desk

Vickie W.

It's a portable stall for a cute little miniature pony, named "Elle Woods" and it fits in the back of a Tahoe. My dog modeled for the pics

"Fancy" Vickie's dog got in the picture and of course had to have a new toy box
