visitors welcome

Our last meeting was at Jerry Gaffords joint on St Simons Island. They got lucky on this lan goin to ocean over Florida and not us... 15 members attended with no guests.

Karen racked in 60 Bucks on raffle and gave her report of the GIWW show at Goodyear.. 9 members showed their crafts and it was a durn good show. Think all was happy with their check.

Next meeting if you are reading is at Charles Walkers place.. 110 Winton Dr. Just off rt 17. turn is south of Airport turn off. I believe he plans a demo on inlay????

There was no demo at the Oct. meet but Pete gave a talk on Tite Bond that he attended. Quite interesting but it did not stick so nothing comes to mind. One thing I did not know is they recommend shaking the bottle to make sure all the little urchins are ready to make a not stick surface sticky. Tite Bond has a web site we should all look at lots of information.

Big bowl for big hearing aids that go into big ears!!!!!!!!!!!!

Gerald has been on a bender. Every day he sends me pics of snowman, bowls, tree houses, bird houses and at last a ass house... Thats short for He Haw..

I could not resist that one.

IS this a Pinocchio snowman???????

In case you all forgot Jerry all enthused about his penetrating epoxy I have been using regular epoxy thined with acetone. But I bought it this stuff anyways..

If you read the instructions on the container it mentions thinning with acetone.

IF you would use regular poxy that would allow you to buy one kind of poxy and be able to use in either as a penetration or regular.
